

# Technical Data Sheet

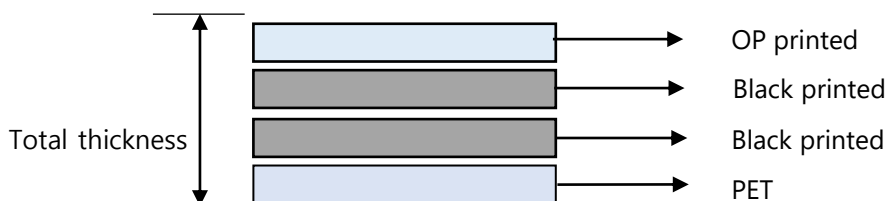

## 1Af2B

Basic materials for shading and processing of electric / electronic products such as TV, notebook, cell phone panel, tape, FPCB, battery pouch

### Applications and Features

- Processing and shading LCD module parts such as mobile phone, touch screen panel, LCD, LED
- Process and shading bases for tapes, paddy pouches and other electrical and electronic products

### Configuration

### Technical data

Test item	unit	Typical	Result	TEST METHOD
Total thickness	$\mu\text{m}$	-	B/F $\pm$ 3	Thickness gauge(1/1000)
PET	$\mu\text{m}$	-	-	
Transmittance	% 550nm	-	< 0.01	0.01 No Light Leakage
Electric resistance	$\Omega$	-	-	-
Color	-	$\Delta\text{L}$	-	Spectrometer
	-	$\Delta\text{a}$	-	
	-	$\Delta\text{b}$	-	

### Features & Benefits

- Print appearance compliance.
- shielding rate superiority
- In the post-process workability
